Dear Tom,

My general inclination is to remain on the Board of
Advisors as long as my services and advice are useful,
and my attendance is productive.

I would be happy to discuss this with you in detail
in New Orleans.

Sincerely,

Richard S. Rosen

Dear Dick:

I am writing on behalf of the Academy to express our sincere gratitude for your continued support on the Board of Advisors. Your commitment to the physician's assistant concept and specifically the Academy are greatly appreciated. Your "all out" effort to attend our Board meetings, your intelligent and as usual articulate input at those meetings, and true enthusiasm is recognized by all of us involved with the Academy and I want you to realize that we truly feel indebted to you.

At the request of the President I am corresponding with you to ascertain your interest in future participation on the Board of Advisors? Personally, and speaking for the entire Board of Directors, I hope you will remain on the Board for I think the upcoming two years will be of critical importance to the physician's assistant concept and the Academy. We have gone through a tremendous growth phase, have won many battles, and have many battles yet to fight. As you are well aware the Academy has been invited to join the American Medical Association's Joint Review Committee has a participating member, came away a winner with five seats on the Proposed National Commission for Certification of Physician's Assistants, and most importantly I think is truly recognized as "the" organization for physician's assistants in this country.

It is my understanding that you will be participating in the upcoming "Second National Conference on New Health Practitioners," and I certainly hope you will be able to join us at an Advisory Board meeting in New Orleans (yet to be scheduled).

I look forward to your reply regarding the Advisory Board and again want to emphasize that we certainly hope you will remain
