Issue #307

W E L C O M E I S S U E

The Best Way to the Best Information

Pat Thibodeau, Associate Dean for Library Services & Archives

Welcome to those who are arriving and returning to our Duke Medicine community! This issue is filled with lots of useful information about our Library and its numerous resources and services.

One of our greatest resources is our excellent staff! They are committed to helping you find the information you need to be successful in your studies, research, and patient care. Please stop by the Library Service Desk if you have a question or need help in finding our books and journals. We also offer training programs and one-on-one consultations to assist you with complex research topics.

This fall we will be making some changes to our Library facility. We are bringing in new furniture, including more comfortable chairs and sofas on the Mezzanine Level. On the Entrance Level, the “Cyber Café” area will be rearranged and spruced up with some additional tables. As a reminder, food and beverages are allowed in all areas of the Library except the History Reading Room and the computer lab. Speaking of computers, more will be added on the Mezzanine Level where the current journal stacks used to be. The current journal issues now reside on the First Stack Level just steps away from the bound volumes. And we are working with Duke Health Technology Solutions on an upgrade for our wireless network (see page 6).

This issue also contains information for those of you who primarily use our virtual Library, **DUMCL Online**, at <http://www.mclibrary.duke.edu>. Be sure to take a look at some of our newest electronic materials – imagesMD, Anesthesia Central, Unbound Surgery, and Natural Standard, which covers integrative medicine. Cell Press journals are now available as well. This year, we will continue to provide access to Scopus, a major research database which combines MEDLINE, Embase and several other scientific databases. For nursing, we now have access to the full text for many of the most used journals indexed in the Cumulative Index to Nursing & Allied Health Literature (CINAHL) database.

Please let us know how we can help with your work and scholarly pursuits at Duke. We hope to make your year a successful one!

DUMCL General Information

Hours of Operation

Monday - Thurs. 8:00 am - 11:00 pm
Friday 8:00 am - 6:00 pm
Saturday 10:00 am - 6:00 pm
Sunday 2:00 pm - 10:00 pm

• History of Medicine Collections

Monday Closed
Tuesday - Friday 9:30 am - 12:30 pm; 1:00 - 4:00 pm
Saturday - Sunday Closed

• Public Services (during semesters)

Monday - Friday 9:00 am - 5:00 pm
Saturday - Sunday Closed

Circulation Services 660-1100

• Borrowing Policies

Books - 4 weeks/2 renewals. *History* - 4 weeks/1 renewal.
Audiovisuals - 1 week. 2 renewals.
Unbound journals - 2 hours. No renewals.
Bound journals - 1 day. No renewals.

• Fines

Books and Audiovisuals - 50 cents a day.
Journals - \$1.00 per hour, with no grace period.
Reserves or noncirculating items - 50 cents per hour, with no grace period.
There is a three-day grace period for books and audio-visuals. If not returned within the grace period, fines accrue from the due date. Failure to return materials or pay fees may result in suspension of privileges.

• TRLN Borrowing Privileges

Your Duke University ID card permits borrowing of books at UNC, NCCU and NCSU.

Document Delivery/Interlibrary Loan 660-1100

- Fee-based, in-house photocopying and/or document delivery for DUMC faculty, staff, and students.

Books/Audiovisuals Free (from Duke libraries)
\$5.00 (from non-Duke libraries)

Photocopies per article

Up to 30 pages \$5.00 (from Duke libraries)
Up to 30 pages *\$11.00 (from non-Duke libraries)
Over 30 pages 10 cents per page

Additional fees

Fax and Rush \$3.00 each, per request

**Interlibrary loan fees over \$11.00 per article will also be billed to the patron after authorization is obtained.*

ILL and photocopy requests may be submitted via the Website at <http://illiad.mclibrary.duke.edu/>. Registration and creation of a username and password are required.

Print Material Locations

- **History of Medicine Collections** - Lower Level
- **Engel Books (circulating)** - Lower Level
- **Current Journals** - First Stack Level
- **Books (circulating)** - First Stack Level
- **Bound Journals (A-C)** - First Stack Level
- **Bound Journals (D-Z)** - Second Stack Level

Self-service Photocopiers/Printer Workstations

- Duke faculty, staff, and students - 7 cents per copy
- Non-Duke users/Commercial vendors - 12 cents per copy

Options for Remote Access (from non-Duke locations)

- **VPN Duke Health System** - Remote *secure* access to restricted health system information and IP-restricted resources. (<http://dhts-ens.duhs.duke.edu/>)
- **VPN Duke University** - Remote *secure* access to IP-restricted resources. (http://www.oit.duke.edu/remote_access/vpn.html)
- **Proxy Server** - Remote *unsecure* access to IP-restricted databases, electronic journals, textbooks, and other resources. (http://www.oit.duke.edu/remote_access/proxy.html)
- **DHTS Help Desk: 684-2243**

Full-text Electronic Journals

- **E-Journals page** - <http://www.mclibrary.duke.edu/find/ejournals>
-  links for citations in certain databases

Public Services 660-1100

- **Mediated Online Search Requests (performed by staff)**
Fee-based search requests may be submitted in person, by phone, or via the Website at <http://www.mclibrary.duke.edu/services/srchform.html>.
- **Tours and Orientations** - Call 660-1100 for information.
- **FAQs** - <http://www.mclibrary.duke.edu/about/faq.html>

Database Access

- **Online Catalog** (<http://library.duke.edu/catalog>)
Access to library collections at Duke, including comprehensive journal information.
- **Ovid Databases** - Books@Ovid, Evidence Based Medicine Reviews, HAPI, International Pharmaceutical Abstracts, Journals@Ovid Full Text, MEDLINE, Nursing & Allied Health (CINAHL), PsycINFO, and SPORTDiscus.
Ovid Web Gateway - Access via the Website at <http://www.mclibrary.duke.edu/ovidweb/ovidweb.cgi>.
An individual account is NOT required for **Generic Access**, but users must connect from a Duke IP address and will not be able to permanently save search strategies.

Continued on page 3

General Information, continued from page 2

Personal Accounts are available for Duke faculty, graduate students, and DUMC staff and students only. Contact 660-1100 for registration information and help with passwords.

• **Other Databases**

Consumer Health: Health Source - Consumer Edition

Citation Databases: ISI Web of Science

Grants: Community of Science (COS) and IRIS

MEDLINE: PubMed

Point of Care: UpToDate and Unbound Surgery

Access these databases and many others via the Website at <http://www.mclibrary.duke.edu/databases>.

Tutorials, Training, Consultation 660-1100

- PubMed, Ovid MEDLINE, EBM, Library Orientation, Grants Information on the Web, Health Statistics Sources, EndNote, Reference Manager, PDAs, and Clinical Tools.
- Call for more information or see the Web page at <http://www.mclibrary.duke.edu/training>.

Computer/Equipment Resources

- **Audiovisual Equipment/Viewing Area** - Mezzanine Level.
- **Medical Library Education Center (MLEC)**
16 Gateway PCs, Internet and database access. To schedule the Classroom, call 660-1158 or use the Web form at <http://www.mclibrary.duke.edu/services/mlecform.html>.
- **Mezzanine Level** - Networked PCs and Macs, application software, Internet and database access, multimedia and microcomputer software/workstations.
- **Multimedia Studio (Room 104J)** - Gateway PC, scanner, DVD & zip drive, CD recordable/rewritable drive, and application software. See <http://www.mclibrary.duke.edu/services/multimedia-studio.html> for more information.
- **Online Catalog Terminals** - Reference Area, Mezzanine Level, and Stacks Levels.
- **Reference Area** - Networked PCs, application software, Internet and database access.

- History of Medicine • Reserves

Information Therapy for Your Health

Pat Thibodeau, Associate Dean

Taking care of your own health is very important, and having access to quality health information has proven to be an important part of staying healthy. The Medical Center Library contains a wealth of information for Duke staff who have health concerns or just want to learn more about preventing diseases and being healthier. These materials can also be very useful when family members and friends have health questions.

Though the Library houses a collection of books written just for consumers, several resources can be accessed through our Website at <http://www.mclibrary.duke.edu/databases>. *Health Source*, a consumer health database, contains full-text articles and brochures. In addition, *AltHealth Watch* and *Natural Standard* provide great information on alternative therapies.

We have also created a “Consumer/Patient Health Subject Guide” at <http://www.mclibrary.duke.edu/subject/consumerhealth> with some key Internet sites. Listed on the guide is *MEDLINEplus*, an excellent source for information from government agencies, societies, and other authoritative and current resources.

Of course, you may want to get your information therapy from the health professional literature. *MD Consult*, which contains core medical textbooks, and *Books@Ovid*, with electronic books in nursing and allied health, can be great resources. The print collection in the Library contains thousands of books on diseases and disorders for use by consumers as well as health professionals. If you want to dig deeper, *MEDLINE* (via PubMed or Ovid) allows you to search the major biomedical journals.

While we do not recommend self-diagnosis, reading current, high-quality health information can help when coping with an ailment or making better health decisions. We hope you take full advantage of the Library’s resources, which are freely available to all Duke faculty, staff, and employees.

Virginia Carden, Administration
Megan von Isenburg, Public Services

Have you noticed? The **Get it at Duke** window now provides more features. In addition to existing links for full text articles (if available), the Online Catalog, the Interlibrary Loan request form, and the Ask a Librarian help page, there are now some new links and tools available.

Articles and Books

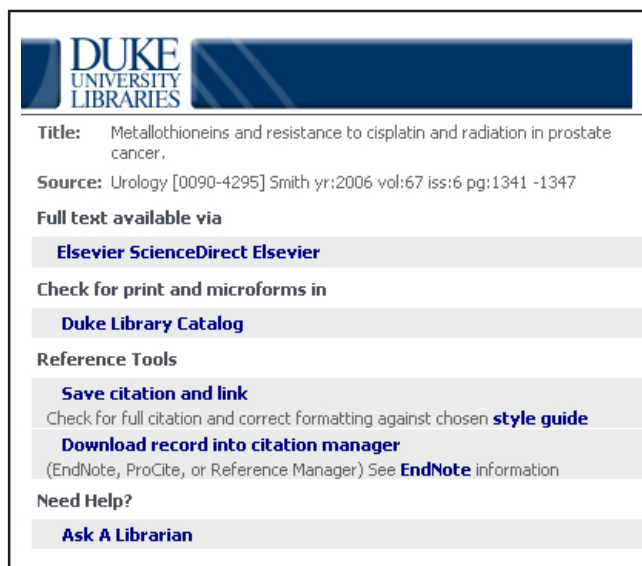

New options under “Reference Tools”

- **Save citation and link**

Capture the citation in several different styles (MLA, Chicago, APA and CBE) as well as the URL for the article. For more information about formats, follow the link to the Perkins Library style guide.

- **Download record into citation manager**

Download the specific reference into your citation manager program. (Note: This exports the citation only; if you would like to export subject headings and/or abstracts, you will need to export the citation directly from the database in which you found the article.) A site license at Duke provides free access to the EndNote software for students, faculty and staff. For more information about EndNote, use the link to the Perkins Library Web page or call the Medical Center Library at (919) 660-1100.

Books

New options under “Request”

- **Book delivery from one Duke Library to another**

Duke faculty and graduate students may request delivery of available books to the Duke library of their choice.

New options under “Contents and Reviews”

- **Read about or buy this book at Amazon.com**

Link to Amazon.com to read reviews, see sample pages (if available), and purchase books.

Staff News

Emily Glenn, Technical Services Coordinator, Medical Center Archives, has left Duke to rejoin her family in Portland, Oregon. Emily had worked in Archives since May 2003.

Beverly Murphy, Assistant Director, Marketing and Publications, presented “Join the Healthcare Team: Become A Medical Librarian,” during the Health Careers Awareness Course for Educators and Students at the Halifax Regional Medical Center, Rocky Mount, NC, on June 21, 2006.

Carol Perryman, Triangle Research Libraries Network Doctoral Fellow, received the second place Research Award for her paper, “Finding Our Foundation: Analysis of the Library and Information Science Abstracts Database for Research Article Retrievability,” at the 2006 Medical Library Association Annual Meeting in May. Carol’s fellowship is being spent at the UNC Health Sciences Library and the Duke Medical Center Library.

Marcos Rodriguez, Information Technology Services, has received a minority student scholarship sponsored jointly by the Medical Library Association and the National Library of Medicine through the American Library Association Spectrum Initiative Scholarship program. Marcos is currently pursuing a Masters Degree in Information Science from UNC-Chapel Hill, where he is focusing on user interface design.

Wireless Connectivity: Finding Your Hot Spot!

Marcos Rodriguez, Information Technology Services

Medical Center Library staff revisited the issue of wireless connectivity in April, during discussions regarding the Library’s strategic plan. The primary concern was the quality of the service and the need for improvement. Currently, the Library’s wireless access extends through most of the Mezzanine and First Stack Levels with some coverage of the Second Stack Level, the Lower Level, and the patio area outside the entrance.

“In addition there is a lot of interference with books, stacks, columns, concrete, etc, which makes providing wireless all the more challenging.”

A few years ago, the Library’s Information Technology Services (ITS) Department identified several areas around the perimeter of the building where there was little or no wireless service coverage. As Renee Matucan, a senior IT analyst in the Duke Enterprise Communications Infrastructure Department, communicated to the ITS Department via email, the Library has presented several challenges for providing wireless service. “When the wireless was first installed in the Library nine years ago, it was installed to support devices with 100Mw clients. As technology has progressed, newer devices have come out with less powerful wireless transmitters to save on battery life, and as a result, users have less than optimal reception. In

Sally Wardell, Assistant Director of ITS, has been coordinating efforts with Duke Health Technology Solutions to improve the quality of the Library’s wireless service. Scott Hartman, a senior IT analyst with the MCIS-CSN Support Team is enthusiastic and optimistic about getting the Library upgraded. In the next few weeks, he anticipates putting in twenty-nine access points to replace the four currently in place.

New Exhibit: Infants and Invalids

This exhibit brings together materials from our History of Medicine Collections on the theme of devices used to care for and treat infants and invalids. It will be on display in the lower lobby through early September.

Library Educational Offerings

*The Medical Center Library offers a variety of educational opportunities.
A roster of training sessions is listed below.*

Individual and Group Sessions

To arrange for a session, please contact the librarian listed under your topic of interest.
