

Duke University Medical Center Library News

October 2007

Issue #314

Celebrate with Us in October! Win an iPod!

Mira Waller, Co-Chair

NMLM Task Force

Come celebrate **National Medical Librarians Month** (NMLM) with the Medical Center Library & Archives during the month of October. Established by the Medical Library Association in 1997, NMLM highlights the abilities and accomplishments of our medical library staff and gives us a chance to illustrate how our expertise and work can positively impact the quality of medical care, education, and research at Duke Medicine. This month-long celebration will include a variety of activities, contests, and prizes.

Throughout the month we will focus on activities that emphasize how the Library and Archives' services, resources, and staff help you to **“Unlock the Door to Your Answers.”** This year's theme is a reminder that we are the key to quality information. If you need help, just ask!

To kick off our celebration, the Library will host a coffee break on Monday, **October 1st**, beginning at **9:00 am** in the “Cyber Café” on the Entrance Level. Join us for bagels, donuts, juice, and coffee, sponsored by Elsevier. If you drop by the Library on **Fridays** around 2:00 pm, we'll be serving **popcorn**.

During October, we will also be sponsoring contests where you can be a detective and help solve some picture puzzles. Every Monday, look for three “detectives” in the Library, who will have the puzzle clues and instructions on how to “give your answers.” Those who answer the puzzles correctly will be entered into a drawing at the end of the month for an **iPod shuffle**, courtesy of Ovid Technologies, Inc.

Be sure to come by the Library or check DUMCL Online at <http://www.mclibrary.duke.edu> for additional contests and surprises during the month.

We look forward to celebrating with you!

Full Access to Cancer Journals

Judy Woodburn, Assistant Director, Journal Services

The Library has negotiated an agreement with the American Association for Cancer Research for a site license. The following journals are now fully available online without a 12-month embargo.

Cancer Epidemiology, Biomarkers & Prevention vol. 1, 1991 -
Cancer Research vol. 9, 1949 -
Cancer Reviews Online vol. 1, 2003 -
Clinical Cancer Research vol. 1, 1995 -
Molecular Cancer Research vol. 1, 2002 -
Molecular Cancer Therapeutics vol. 1, 2001 -

Journal Cancellations 2008

The School of Medicine has been affected by cutbacks in grant funding from the National Institutes of Health, and most departments (including the Library) have had their budgets cut this fiscal year. The Library's non-personnel lines have been cut \$100,000. A large part of this will come from journal funding. We are proposing to cancel the titles listed at <http://www.mclibrary.duke.edu/temp/jcancel08>. The majority will continue to be available online in various packages, though some will have an embargo of 6-12 months on content.

If you have concerns about any of the resources listed, please send your comments, including justifications, to **Judy Woodburn**, Assistant Director, Journal Services at j.woodburn@duke.edu.

IEEE Xplore - Biomedical Engineering Research

Being part of the larger University means that Duke Medicine has access to a number of specialized databases which are related to, but not focused on medicine. One such resource is IEEE Xplore, a full-text database that supports biomedical engineering research.

Produced by IEEE (Institute of Electrical and Electronics Engineers), Xplore provides full-text access to journals, books, and conference proceedings published since 1988, and all current standards. Some selected titles go back to 1950. It has more than 1.6 million documents and includes highly-cited journals in the fields of electrical and electronics engineering, telecommunications, and medical imaging.

IEEE Xplore provides topical coverage of bioimaging, biomaterials, biomechanics, electrophysiology, computational modeling, robotics, and computer science. Features include the ability to:

- Perform basic, advanced, and author searches
- Browse by an alphabetic list of titles or by keyword
- Download citations into EndNote
- Receive email alerts of recently published tables of contents

Visit <http://ieeexplore.ieee.org/Xplore/dynhome.jsp> to review all the features and search the database.

Enhanced Version of EBSCOhost CINAHL Coming in October

Anne Powers, Public Services

Through the efforts of a library organization called the Carolina Consortium, institutions in North Carolina that are members of NC LIVE have been given the opportunity to upgrade to the most comprehensive version of EBSCO's CINAHL database, "**CINAHL Plus with Full Text.**" This offer will enable the Medical Center Library to increase access to full-text electronic resources for the Duke Medicine community for a very reasonable cost.

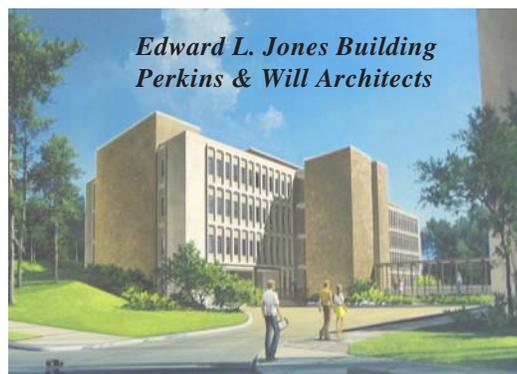

CINAHL Plus with Full Text includes a number of online journals not currently available at Duke and offers deeper coverage of several existing titles. The database also contains electronic textbooks and browsable Evidence-Based Care Sheets and Quick Lesson CE topic reviews prepared by CINAHL Information Systems staff. The EBSCOhost search interface will essentially remain the same as the one we have been using since July, 2007. So look for even greater availability of full-text electronic content with the arrival of CINAHL Plus with Full Text in October.

New Collection at the Archives

Jessica Roseberry, Medical Center Archives

Artist renderings of Duke Medical Center buildings are now part of the Medical Center Archives collection thanks to a donation from Facility Planning, Design and Construction. These approximately thirty-five paintings, drawings, and reproduced prints of building designs were once housed in a storage room in PG III near the ambulance bay.

Dawne Lucas, Archives Technical Services Coordinator, is responsible for overseeing the preservation of this architectural collection. "To care for such pieces of history takes work," says Lucas. She has removed them from their original frames, is in the process of cleaning them, and will put them in large folders or cover them in archival corrugated boards to prevent further damage. Some of the drawings have tape on them, one is stuck to the glass of its frame, and some are attached to the foam board backing of the frames. "To extract the images would only damage them further," Lucas says. Housing the drawings in the Archives will prolong their life and ensure that they are properly stored, enabling researchers to view renderings from the 1960s and '70s of specific buildings on the medical campus as they stood at the time.

There are quite a few buildings represented in this artistic collection (e.g., Alexander H. Sands, Nanaline Duke, Civitan, rehabilitation addition to Baker, etc.), and several firms, including David Hall Associates Architectural Arts and Ralph Johnson Associates. Many of the items make reference to the buildings' original architects, namely Perkins & Will, John D. Latimer & Associates, and former University Architect James A. Ward. "It would be interesting to look at the artwork and then at the actual buildings and see how well they match," says Lucas. Since campus and artistic trends are constantly changing, these relics represent a slice of time worth preserving.

MedEdPORTAL

<http://www.aamc.org/mededportal>

This resource is designed to help faculty publish and share educational resources. Publications include tutorials, virtual patients, cases, lab manuals, assessment instruments, faculty development materials, etc., which cover the continuum of medical education from undergraduate and graduate, to continuing medical education. MedEdPORTAL contains descriptive information about published resources and indicates how these materials may be accessed or obtained.

Gifts and Donations

Karen Grigg, Assistant Director, Collection Services

The following individuals donated books/materials to the Medical Center Library from July, 2006 - June, 2007.

Dr. Banks Anderson, Jr.	Dr. David & Susan Epstein	Mrs. Ben Jordan, Jr.	Ms. Ellen Perduyn
Dr. Richard Becker	Dr. Jonathon Erlen	Dr. Samuel & Catherine Katz	Dr. Glenn Preminger
Dr. Timothy L. Benning	Justin Faroro	Ms. Anne Kiang	Dr. Edward L. C. Pritchett
Dr. Darell D. Bigner	Dr. John Feagin	Dr. Warren Kinghorn	Dr. H. Max Schiebel
Dr. Dan G. Blazer	Dr. Irwin & Therese Fridovich	Dr. Mark Leary	Dr. Susan Schiffman
Dr. Edward & Roxana Bossen	Drs. Donald & Karen Frush	Ms. Wendy Cornell Levin	Dr. Joseph Shatzmiller
William R. Burk	Ms. Barbara Gentry	Dr. Wolfgang Liedtke	Ms. Julie Sills
Barbara Busse	Dr. Florence Eliza Glaze	Dr. Jimmy Lu	Ms. Wendy Thompson
Dr. Roberto Cabeza	Dr. Tracy Gaudet	Dr. Nancy Major	Dr. Mosche & Rebecca Usadi
Dr. Robert Califf	Dr. J. Samuel & Marie Hammond	Ms. Tereza Martinu	Ms. Edith T. Vitols
Dr. Rohanna Calnaido	Sally Trent Harris	Dr. John P. McGovern	David Wentworth
Dr. Elizabeth Chenault	Dr. Judith Hays	William & Anne McLendon	Drs. George & Evelyn Wilbanks
Dr. Harvey Cohen	Stephen L. Isaacs	Dr. Michael R. McVaugh	Alice Wilkins
Dr. Chad E. Cook	Dr. Danny O. Jacobs	Mrs. Brenda Meadows	Dr. Scott C. Wilson
Dr. George J. D'Angelo	Dianne Johnson	Dr. Blaine S. Nashold, Jr.	Pamela A. Zachar
Dr. R. Duane Davis	Ben P. Jones	Dr. Sherman H. Pace	Dr. Susan E. Zarutskie
Dr. Carl S. L. Eisenberg	Jenny Semans Joortbojian	Dr. Joseph B. Parker, Jr.	Dr. Lawrence S. Zisman

Get the New Library Toolbar!

Megan von Isenburg
Associate Director, Public Services

What can you do with the Library's toolbar?

- ▶ Search the Web via Google, the Library's Website, PubMed, the catalog, or subject guides. Highlight a term on a Web page or type it into the search box to begin a search.
- ▶ Have the Library's Quick Links (Clinical Tools page, E-Journals, PubMed, and Databases page) available with the click of a button from any Web page.
- ▶ Quickly access resources for finding an article. Direct links to the Catalog, E-Journals, PubMed's Single Citation Matcher, and Interlibrary Loan make it easy to locate articles faster.
- ▶ Renew materials more easily.
- ▶ Ask for help with library research and resources from any Web page.
- ▶ Stay current with news from the Library and health news from Reuters.
- ▶ Access your email and weather information directly from your browser (optional).

This small program works for Internet Explorer and Firefox and only takes a few seconds to download.

Install your toolbar today!

Medical Center Library

Staff News

Jessica Roseberry, Oral History Program Coordinator, Medical Center Archives, will present a paper at the National Oral History Association meeting in Oakland, CA, on October 26, 2007. Her topic will be “Women’s Voices at Duke University Medical Center: Transformations in a Medical Community.”

Pat Thibodeau, Associate Dean of Library Services & Archives, and **Megan von Isenburg**, Associate Director, Public Services, taught “Finding and Evaluating Health Information” at the main branch of the Durham County Public Library on Saturday, August 18, 2007. The hands-on class focused on giving community members the skills to evaluate health information on the Internet and to use reliable consumer health sites such as MedlinePlus.

Saturday Nov. 24 10:00 am - 6:00 pm

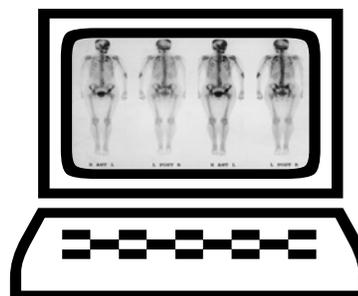

Sunday Nov. 25 2:00 pm - 10:00 pm

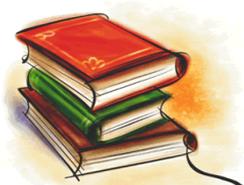

Anatomy.TV offers detailed 3D models of human anatomy focusing on muscles, ligaments, nerves,

veins, arteries, bones. It features interactive zoom, rotation, angle, interactive layers, extensive text, MRI, clinical slides and xrays, live action movies, animations, radiology slides, dissection videos and slides, and surface anatomy videos and slides. Access to this program will be available for the next three years.

The link to Anatomy.TV can be found in the **Gross Anatomy Subject Guide** under “Selected for Course” (<http://www.mclibrary.duke.edu/subject/grossanatomy/course>). *Please note: Use of this program is restricted to Duke IP addresses.*

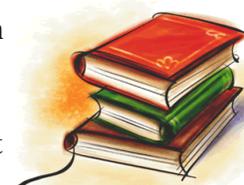

New Books Blog

We have relocated the featured new book titles to their own home at <http://www.mclibrary.duke.edu/newbooks>.

Check out the New Books Blog weekly for information about selected new book titles!

Library Educational Offerings

*The Medical Center Library offers a variety of educational opportunities.
A roster of training sessions is listed below.*

Individual and Group Sessions

To arrange for a session, please contact the librarian listed under your topic of interest.

MEDLINE: PubMed

Anne Powers, 919-660-1128

MEDLINE: Ovid

Anne Powers, 919-660-1128

Library Orientation (drop-in session)

First Tuesday of every month (12:15-12:45 pm)

Brandi Tuttle, 919-660-1126

Evidence-Based Medicine

Connie Schardt, 919-660-1124

CINAHL (Cumulative Index to Nursing and Allied Health Literature)

Anne Powers, 919-660-1128

Introduction to EndNote

Ginger Carden, 919-660-1184

Introduction to Reference Manager

Ginger Carden, 919-660-1184

Grant Information on the Web: Community of Science and Other Resources

Anne Powers, 919-660-1128

Clinical Tools

Connie Schardt, 919-660-1124

Introduction to Sources for Health Statistics

Self-Instruction

For self-paced learning, online tutorials for many of the Library's resources can be found on the Tutorials and Training page of the Library's Website at <http://www.mclibrary.duke.edu/training>.

Featured Tutorial: PubMed - <http://www.nlm.nih.gov/bsd/disted/pubmedtutorial/>

Customized Training

*If you would like to schedule a customized training session for yourself or your department on specific resources or topics, please contact **Connie Schardt, Associate Director of Public Services - Education Services**, at **660-1124** to make arrangements. Sessions can be scheduled in the Medical Library Education Center (Room 104; Lower Level of the Library) or at a location within your department.*

For more information about these offerings, connect to the Library's Website at <http://www.mclibrary.duke.edu/training>

Duke University Medical Center Library News is published bimonthly.
