

**Duke University Medical Center Library**

**Scientific research that is carried out using computing technologies that enhance collaboration & innovative methods.**

**A rapidly growing multidisciplinary field that uses advanced computing capabilities to understand & solve complex problems.**

**New research methodology, fueled by networked capabilities, that gathers & stores vast amounts of data. The data are then mined to find patterns or correlations.**

# Influenza Positive Tests Reported to CDC by U.S. WHO/NREVSS Collaborating Laboratories, National Summary, 2008-09

# Translational Science

speeding the  
translation of  
laboratory discoveries  
into treatments for  
patients
