October 2008

Issue #320

## Celebrate with Us in October! Win an iPod!

**Elizabeth Berney, NMLM Task Force**

October is **National Medical Librarians Month** (NMLM), established by the Medical Library Association in 1997 to highlight the abilities and accomplishments of medical library staff. Please join us all month long as we illustrate how we can help you “*Dig Deep*” for answers and make new discoveries of resources you may not be familiar with. Our services, resources, and expertise can impact the quality of medical care, education, and research at Duke Medicine.

Stop by the Library on Monday, **October 6th**, starting at **9:00 am** for a kick-off continental breakfast sponsored by Elsevier. Join us for coffee, juice, bagels, donuts, and fruit, and enter a drawing to win a **digital picture frame**.

The NMLM celebration will include a variety of other activities, contests, and prizes.

- ▶ Last year’s picture puzzles were a big hit, so our detectives will be returning this year with some new ones. Every Monday look for three “detectives” in the Library, who will have the puzzle clues and instructions on how to give your answers. Correct answers will be entered into a drawing for an **iPod touch** at the end of the month, courtesy of Informa Healthcare.
- ▶ The Library has received a grant to test the feasibility of using the **Amazon Kindle** wireless reading device in remote clinics where Internet service and space for books may be limited. This month you will have an opportunity to win a Kindle, courtesy of Mary Ann Liebert.
- ▶ “**Duke Day**,” sponsored by Duke University Stores, will be held on **Monday, October 20th**. Come to the Library on this special day and try your chance at winning Duke merchandise.
- ▶ Enter to win one of three **\$100 Amazon gift certificates** provided by Gold Standard.
- ▶ Majors, a medical book distributor, has donated a wide variety of **books** for us to give away. Sign up all month long to win.
- ▶ If you drop by the Library on **Fridays** around 2:00 pm, we’ll be serving **popcorn**.

Be sure to come by the Library or check our Website at <http://www.mclibrary.duke.edu> for additional contests and surprises during the month.

## Refreshed Look for the Website!

<http://www.mclibrary.duke.edu>

On August 27, 2008, the Medical Center Library launched a revised version of DUMCL Online, the Library's Website. As part of the new design, we have reorganized our resources so they are easier to find. Although the basic categories have not changed, the list of options has been reduced to a smaller, more focused set of the more popular resources and tool sets.

The most prominent new feature is the addition of a multifunctional search gadget designed to save you steps when looking for information in some of the most used resources. We have also introduced a new option, "From the Literature," to highlight thought-provoking and significant journal articles from the medical literature, as well as an "Add This" button for bookmarking and sharing pages.

The staff has worked hard to improve and enhance our Website, and we hope that you will find our latest rendition fresher and more useful. We will continue to refine the site over the coming months and would appreciate your feedback. If you have comments, please submit them to **Beverly Murphy**, Webmaster, at [murph005@mc.duke.edu](mailto:murph005@mc.duke.edu).

The screenshot shows the Duke University Medical Center Library website. At the top left is the Duke University logo. The main header features the text "Duke University Medical Center Library" and a navigation bar with links: "Catalog", "All Journals", "E-Journals", "MEDLINE", "Clinical Tools", "Ask a Librarian", and "Search". Below the header is a search area with tabs for "Website", "Catalog", "E-Journals", "PubMed", and "UpToDate". A search box is present with a "Go" button. To the right of the search area are several featured sections: "Today's Health News" (Duke, NIH, NY Times, and Reuters), "New DUMC Articles" (Recent articles by Duke authors), "From the Literature" ("Tight Glycemic Control in Critically Ill Adults"), "Library Blog" with an RSS icon, "EndNote Class" (Learn how to organize references, create bibliographies, and work with manuscripts. Thursday, Sept. 11th; 5:15 - 6:15 pm (Rm 104 Lower Level)), "CINAHL Training" (EBSCOhost launched an updated version of its search interface in July. Join us on Friday, Sept. 12th from 12:00 - 1:00 pm (Room 104 Lower Level) for a hands-on introductory CINAHL class.), "MCL at Your Desktop" (Provide effective support for research, publication, and instruction using the latest Library technologies and resources. The class is free but registration is required. Tuesday, Sept. 16th; 1:00 - 3:00 pm (Room 104 Lower Level)), and "More Library News". On the left side, there is a sidebar with "Databases", "Find a Book/Journal", "Services", "Subject Guides", "Tutorials & Training", "History of Medicine", "DUMC Archives", "About the Library", "Other Sites @ Duke" (Duke PhoneBook, Duke Libraries, More...), "Directions & Maps", "Suggestions?", "Library Hours" (Mon-Th: 8am - 11pm, Fri: 8am - 6pm, Sat: 10am - 6pm, Sun: 2pm - 10pm), and "Phone: (919) 660-1100". At the bottom left of the sidebar is an "ADD THIS" button with social media icons. Below the sidebar are "Popular Resources" (CINAHL, MD Consult, MEDLINE (Ovid/PubMed), UpToDate (campus only), Web of Science, Citation Matcher, E-Books, Order an Article/Book Reference, Remote Access, Renew Books Online, NIH Public Access Policy) and "Tool Sets" (Clinical Tools, Nursing Tools, EBM Tools, Medical Students, Tools for Authors, Life After Duke, Duke Raleigh Hospital, Library Toolbar, Library Search Gadget).

## Remote Access to Library Resources

Megan von Isenburg

Associate Director, Public Services - Information Services

Most of the databases and journals that the Library subscribes to are only available to Duke students, faculty, and staff. Access to these resources is most frequently provided through IP authentication, meaning that employees and students can get to them whenever they are on the Duke network. However, when you are off campus, you are no longer coming from the Duke network and will need to use one of the remote options to access our resources.

While we would prefer that all our journals and databases be as easy to get to as possible, many of our contracts limit access to medical center students, staff and faculty or to the physical Medical Center campus. Some of our resources are less restrictive, and anyone from Duke can use them remotely. Because of these differences, there are two main ways to access our resources. You can use the VPN (Virtual Private Network) client, a small program that you download onto your computer, or the EZProxy, which only requires that you sign in with your Duke NetID and password when prompted.

For the most part, the best way to get to our resources from remote locations is by downloading and running the VPN client. Once the VPN is running, you can get into resources that require either the VPN or the EZProxy. Duke University and the Duke University Health System both offer VPN options. The Health System VPN requires permission from your Local Area Network administrator, because it grants you access to protected health information. To learn more about which of these two options will work best for you, connect to the “Remote Access to Library Resources” page at <http://www.mclibrary.duke.edu/services/remoteaccess.html>.

**How do you get to your favorite resources?** Easy! Just use our Website at <http://www.mclibrary.duke.edu>. To get to the content of a database or e-journal once you select it from our site, you will either be prompted to connect to the EZProxy with your Duke NetID and password or have to run the VPN client.

CINAHL.....	VPN or EZProxy
Clinical Pharmacology.....	VPN only
E-Journals.....	All are accessible through VPN, but some also have limited access through EZProxy. It's best to use the VPN client to be sure you can get what you need.
Medical Center Library Website..... Clinical Tools Pages	Freely available via the Internet. Access to specific resources varies.
Ovid MEDLINE.....	VPN or EZProxy Note: Access to Ovid MEDLINE does not grant you access to the full text of articles we do not subscribe to.
PubMed.....	Freely available over the Internet, but be sure to connect to it through our Website to see what articles are available at Duke. Note: Access to PubMed does not grant you access to the full text of articles we do not subscribe to.
UpToDate.....	Only accessible on the Medical Center campus. No remote access is available.
Web of Science.....	VPN or EZProxy

# Renovations Update

**Pat Thibodeau**

**Associate Dean for Library Services & Archives**

After a summer of drilling, pounding, and dust, renovations are coming to an end on the Mezzanine Level of the Library. Come see how it's changed.

- ◆ Six new group study carrels
- ◆ New conference room
- ◆ Two PIN stations (two more in room 214)
- ◆ Newly-configured computer workstations
- ◆ Lots of comfortable seating
- ◆ An exhibit wall
- ◆ Two newly-constructed restrooms

Let us know what you think of these changes! We will be placing flip charts around the area where you can leave your comments. You can also send a message to [mclref@mc.duke.edu](mailto:mclref@mc.duke.edu).

Construction is continuing on the top floor of the Mudd building, which is being converted into office space for Duke Cancer Center faculty and staff. There will still be some noise and dust until these renovations are completed in December.

If you have trouble finding a quiet space on the First Stack Level, try the spaces on the Entrance and Lower Levels, including the computer classroom in Room 104. By January, the First Stack Level will return to a quiet zone for study and research.

Thanks to all of you for your patience during the construction, confusion, and changes in our facility.

---

## Check Out Our E-Books!

**Karen Grigg, Associate Director, Collection Development Services**

Increasingly our patrons are using e-books for quick lookups and clinical information, and this preference is increasing across all user groups. As a result, we have been building a diverse and substantial collection of core medical texts in electronic format. Statistics suggest that these resources are used frequently.

We have several e-book packages that are worth checking out. Through **MDConsult**, we subscribe to such titles as *Nelson Textbook of Pediatrics*, *Miller's Anesthesia*, and *Sabiston Textbook of Surgery*. **Rittenhouse's R2** offers *Essentials of Clinical Geriatrics*, *Hurst's The Heart*, and other titles. **Books@Ovid** provides some of the most heavily used nursing titles including *Lippincott Manual of Nursing Practice* and *Nursing Care Plans & Documentation: Nursing Diagnoses and Collaborative Problems*.

Recently, we added a few titles from the **STAT!Ref** library. Users can choose from several core titles including *Harrison's Principles of Internal Medicine* and *Schwartz's Principles of Surgery*.

E-books provide many advantages over their print counterparts. Since they don't have to be checked out, they are accessible to more users. In addition to being searchable, many e-books allow users to copy and paste text. These titles are usually accessible from off campus as well.

For more information about our electronic book offerings and access, visit the Library's E-book Web pages at <http://www.mclibrary.duke.edu/find/ebooks>. You can browse by subject or alphabetically by title or search by textword. We will continue to add to our collection of electronic texts, so check back often to keep up-to-date with new arrivals.

If you have any questions, comments or suggestions, please contact **Karen Grigg** at [karen.grigg@duke.edu](mailto:karen.grigg@duke.edu) or (919) 660-1122.

## Ivan Brown Gives Special Lecture

Jessica Roseberry, Medical Center Archives

Duke alumnus and former professor **Dr. Ivan W. Brown** gave a special History of Medicine lecture in September entitled “The 65ths: Notable NC Army Hospitals of WWI and WWII.” The 65th Base and General Hospitals were medical units attending to combat casualties during WWI and WWII. Dr. Brown, a captain on the surgical service of the 65th General Hospital during World War II, was the unit’s youngest member and has preserved significant historical information on both units.

Dr. Brown spoke stirringly for forty-five minutes about the movements, conditions, and challenges of each of the two units. His multimedia presentation included a mixture of video clips, photos, historical information, personal narratives, and patient testimonies. For a recording of this event, please contact **Jessica Roseberry** at **(919) 383-2653**.

**Anatomy.TV** offers detailed 3D models of human anatomy focusing on muscles, ligaments, nerves, veins, arteries, and bones. It features interactive zoom, rotation, angle, interactive layers, extensive text, MRI, clinical slides and x-rays, live action movies, animations, radiology slides, dissection videos and slides, and surface anatomy videos and slides. Access to this program will be available for the next three years.

The link to Anatomy.TV can be found in the **Gross Anatomy Subject Guide** under “Selected for Course” (<http://www.mclibrary.duke.edu/subject/grossanatomy/course>). *Please note: Use of this program is restricted to Duke IP addresses.*

## Gifts and Donations

**Karen Grigg, Associate Director, Collection Development Services**

The following individuals donated books/materials to the Medical Center Library from July, 2007- June, 2008.

Dr. Kathryn Andolsek	Dr. Judith Hays	Dr. Raphael Pinaud
Dr. Julie V. Barroso	Dr. Joseph Heitman	Dr. Edward L. C. Pritchett
Violette Blumenthal	Robert P. Iacono Estate	Darlene and Gordon Reeves
Dr. Harvey Cohen	Hon. James P. & Mary Trent Jones	Dr. William M. Reichert
Dr. George J. D’Angelo	Dr. Warren Kinghorn	Kenneth Rockwell
Jaime Devers	Ms. Jenny Semans Koortborjian	Dr. & Mrs. David C. Sabiston, Jr.
Dr. Howard J. Eisenson	Dr. Irwin Kremen	Dr. Herbert O. & Mrs. Dorothy L. Sieker
Dr. & Mrs. George A. Engstrom	Dr. Neil R. MacIntyre	Andrea Styron
Dr. David & Susan Epstein	Avinash Maheshwary	Ms. Jennifer Sullivan
Dr. Jonathon Erlen	Dr. Michael R. McVaugh	Kevan E. VanLandingham & Debarra L. Tucci
Dr. Sheung Tat Fan	Dr. Enrique Montero	Dr. Galen S. Wagner
Dr. John Feagin	Dr. Andrew T. Nadell	Dr. Lisle Wayne II
Christopher Fiander	Dr. Barbara C. Newborg	Wentworth & Leggett
Dr. & Mrs. Irwin M. Freundlich	Dr. Miguel A. L. Nicolelis	Dr. David S. Werman
Otto Hagan	Dr. Theodore N. Pappas	Drs. George & Evelyn Wilbanks
J. Samuel Hammond	Phyllis Parker	Alice Wilkins
Dr. Edward C. Halperin	Drs. George W. & Ruth B. Paulson	Dr. & Mrs. Robert H. Wilkins
Mr. & Mrs. Christopher M. Harris	Ellen Perduyn	
Dr. Margaret Humphreys	Dr. Claude A. Piantadosi	

## Duke/UNC Speaker Series

*Trent History of Medicine  
Society and the Bullitt History  
of Medicine Club*

**Oct. 21, 2008 - UNC Health Sciences Library  
Elizabeth Fenn, Ph.D.**

Associate Professor, Department of History, Duke  
*Pox Americana: The Great Smallpox Epidemic  
of 1775-82*

## Duke/UNC Speaker Series

*Trent History of Medicine  
Society and the Bullitt History  
of Medicine Club*

**Nov. 11, 2008 - Duke Medical Center Library  
Robert H. Wilkins, M.D.**

Professor Emeritus, Neurosurgery, Duke  
*Barnes Woodhall: Man of Mystery*

## DUMCL Honors African-American Academic Surgeons

**Jessica Roseberry, Medical Center Archives**

The Duke Medical Center Library will be showing a traveling exhibit from February 1 - April 28, 2009. On loan from the National Library of Medicine, the exhibit explores and celebrates African-American academic surgeons, including Duke Medicine's own Chair of the Department of Surgery, **Dr. Danny Jacobs**.

In honor of Black History Month, the NLM exhibit will be officially unveiled on February 9, 2009, at 4:30 pm. The unveiling will be immediately preceded by our fourth annual "Tea with Trailblazers" speaker panel beginning at 2:30 pm. **Dr. Haywood Brown**, Chair of the Duke Department of Obstetrics and Gynecology, will join Dr. Jacobs to talk about their experiences as African-American trailblazers at Duke. Refreshments will be served. The event is free and open to the public.

## OPENING DOORS:

CONTEMPORARY AFRICAN AMERICAN  
ACADEMIC SURGEONS

**National Archives Week  
October 5-11, 2008**

### Thanksgiving Holiday Hours

Wednesday	Nov. 26	8:00 am - 6:00 pm
Thursday	Nov. 27	CLOSED
Friday	Nov. 28	8:00 am - 6:00 pm

## Library Educational Offerings

*The Medical Center Library offers a variety of educational opportunities.  
A roster of training sessions is listed below.*

### Individual and Group Sessions

*To arrange for a session, please contact the librarian listed under your topic of interest.*

#### **MEDLINE: PubMed**

Megan von Isenburg, 919-660-1131

#### **MEDLINE: OvidSP**

Anne Powers, 919-660-1128

#### **Library Orientation** (drop-in session)

First Tuesday of every month (12:15-12:45 pm)

Brandi Tuttle, 919-660-1126

#### **Evidence-Based Medicine**

Connie Schardt, 919-660-1124

#### **CINAHL (Cumulative Index to Nursing and Allied Health Literature)**

Anne Powers, 919-660-1128

#### **Introduction to EndNote**

Ginger Carden, 919-660-1184

#### **Introduction to Reference Manager**

Ginger Carden, 919-660-1184

#### **Introduction to Sources for Health Statistics**

Hattie Vines, 919-660-1125

#### **Clinical Tools**

Connie Schardt, 919-660-1124

#### **Web of Science**

Megan von Isenburg, 919-660-1131

### Self-Instruction

*For self-paced learning, online tutorials for many of the Library's resources can be found on the Tutorials and Training page of the Library's Website at <http://www.mclibrary.duke.edu/training>.*

***Featured Tutorial: RefWorks - <http://www.refworks.com/tutorial/>***

### Customized Training

*If you would like to schedule a customized training session for yourself or your department on specific resources or topics, please contact **Connie Schardt, Associate Director of Public Services - Education Services**, at **660-1124** to make arrangements. Sessions can be scheduled in the Medical Library Education Center (Room 104; Lower Level of the Library) or at a location within your department.*

***For more information about these offerings, connect to the Library's Website at <http://www.mclibrary.duke.edu/training>***

***Duke University Medical Center Library News is published bimonthly.***

*Pat Thibodeau, Associate Dean*

*Beverly Murphy, Editor*

*Editorial Board:*

*Jessica Roseberry*

*Julie Walker*

*Megan von Isenburg*

*Anne Powers*
