Free subscriptions to Ciba's Clinical Symposia are still available by signing up in the Medical Education Office. These subscriptions last one year only, but they may be renewed.

ADVISORY MEETING HELD

On Monday, October 24, Bob St. Peter called a group of student officers together to discuss a matter that had previously been brought up at a Davison Council Meeting which required immediate action. Those present included: Jodell Boyle, Sophia Chung, Steve Feldman, T.J. Maroon, Walter Pharr, Jennifer Ruh, Lenny Silverstein, and Jim Wiley.

The matter discussed was a letter of support to the Community and Family Medicine Department for a grant proposal to be mailed the 26th. Procedural questions were voiced, since although the by-laws allow the President to write letters on behalf of the Council, it was understood at the last meeting that this letter's contents would be voted upon by the full Council. The discussion was heated and lasted one hour before an advisory vote was taken.

It was concluded in spite of a dissenting vote by Steve Feldman to send the letter of support for the grant with only grammatical revisions. Bob St. Peter emphasized that the grant money is not related to the continuance of the Family Medicine Rotation. It was finally agreed that both the questions of the letter itself and the institution of the Family Medicine Rotation would be discussed at subsequent Davison Council Meetings.

ANOTHER PUZZLER

Place your answer in the Davison Council Ballot Box in the Duke South Mail Room for an opportunity to win Baskin-Robbins Ice Cream Gift Certificates. Ready, go!

There are three cabinets, each with two drawers.
One contains two gold coins, another contains two silver coins, and the third contains one gold and one silver.
You walk up to a cabinet and open a drawer.
It contains a gold coin.
What is the probability that the coin in the other drawer will also be gold?

Answer: _____

You're learning everything about your profession...except how to plan it.

After years of studying and training, you'll be prepared to provide professional service and care. But what about managing a profitable practice...does your curriculum also include the principles of business management and financial planning?

That's where MAPS comes in. MAPS is the Mutual Association for Professional Services — a non-profit membership organization dedicated to solving the diverse administrative and economic problems of students and practicing professionals in the health care, legal and accounting fields.

MAPS representatives offer personalized solutions to the problems you encounter — providing the specialized resources and planning expertise that will help you now and throughout your professional career. From confidential loans and insurance programs to medical jackets and equipment leasing to name just a few.

All from one convenient source...to save you time and money.

For more information on MAPS, contact your local service office...and make sure your career begins the way it should...professionally.
