POST-SOPHMORE FELLOWSHIP IN PATHOLOGY

The University of Minnesota is offering an opportunity to increase knowledge of pathology and develop research interest. A stipend of \$8,000 for the year is provided.

Interested students should contact Dr. Christakos' office. The application deadline is May 31.

INFORMATION NEEDED

Anyone having knowledge of summer job opportunities should contact Dr. Shirley Osterhout. There are many medical and premedical students who are interested in working at Duke University Medical Center and who are in need of employment.

SWIMMERS EMERGE VICTORIOUS

A first year medical school team finished first among the graduate school entries in the intramural swim meet on April 1. Led by Ed Fearnow, who finished second in the diving competition, and team captain Bob Sherrier, who took fifth in the 100 freestyle, the team finished eighth overall in the 15 team field. Sherrier joined Brian Mitchell, Erik Paulson, and Dean Taylor on the fourth place 200-yard freestyle relay team. Other team members taking part in the win were Hugh Windom, Don Frush, and Dan Friedman.

Special Honors Presented

The Golden Apple Awards were announced last Saturday at the Student-Faculty Show. Receiving this honor were Stephen Vogel, M.D., Professor of Pathology, for Basic Science; William Coleman, M.D., Department of Pediatrics, for House Staff; and Howard Filston, M.D., Associate Professor of General and Thoracic Surgery and Associate Professor of Pediatrics, for Clinical Instruction. The student body had voted for these awards in April.

ANOTHER WORD EQUATION ANALYSIS

This week we are presenting another word equation analysis which, if solved correctly, is eligible, as usual, for an ice cream gift certificate. See if you can translate the "equations" below. Example: 1000 = W. that a P. is W.; Answer: 1000 = Words that a Picture is Worth. It isn't fair to use calculators.

9 = P. in the S.S.

1 = W. on a U.

88 = P. K.

5 = D. in a Z. C.

90 = D. in a R.A.

11 = P. on a F. T.

8 = S. on a S. S.

29 = D. in F. in a L. Y.

4 = Q. in a G.

64 = S. on a C.

24 = H. in a D.

You're learning everything about your profession...except how to plan it.

After years of studying and training, you'll be prepared to provide professional service and care. But what about managing a profitable practice...does your curriculum also include the principles of business management and financial planning?

That's where MAPS comes in. MAPS is the Mutual Association for Professional Services — a non-profit membership organization dedicated to solving the diverse administrative and economic problems of students and practicing professionals in the health care, legal and accounting fields.

MAPS representatives offer personalized solutions to the problems you encounter — providing the specialized resources and planning expertise that will help you now and throughout your professional career. From confidential loans and insurance programs to medical jackets and equipment leasing to name just a few.

All from one convenient source...to save you time and money.

For more information on MAPS, contact your local service office...and make sure your career begins the way it should...professionally.
