Dear Sir or Mrs.

A group of us P.A.'s here in Brooklyn were discussing the impact on health care that the presidential elections would bring.

This brought us to the question we thought we would write you guys about;

Does or did Gov. Carter support the P.A. concept while Gov. of Georgia? We were unable to get the answer up here so we thought you guys could help answer us.

If N.H.I. is pushed through (and if Carter is elected) his appreciation of the P.A. could play a role regarding where we wind up.

( Let's get a P.A. in Plains! )

Well, if you could answer it will be appreciated.

with thanks
