

Creating a Directory of Information Literacy Mapping in Health Sciences Disciplines

Attempts to map information literacy concepts to health professions competencies abound. A single directory, hosted by MLA, will promote collaboration and reduce duplication.

Concept	IL	EBP
Searching the literature	✓	✓
Evaluation of literature	✓	✓
Determining authority	✓	✓
Determining relevance	✓	✓
Critical thinking	✓	✓
Academic focus	✓	
Clinical focus		✓

BACKGROUND

Medical Library Association (MLA) formed the Education Domain Hub, whose vision is to advance member skills and competencies by offering professional learning opportunities, developing teaching techniques, sharing educational resources, and promoting health and information literacy.

The Information Literacy (IL) mapping workgroup of the Education Hub focused on creating resources for mapping IL concepts.

Work Group Members

Nena Schvaneveldt, MSLIS, AHIP
Brandi Tuttle, MSLIS, AHIP
Christine Andresen, MLS, MSIT
Angela Murrell, MLIS
Kristine A. Petre, MLS, AHIP, CM
Sarah Wade, MLS, AHIP

DESCRIPTION

The workgroup designed a submission form, review process, and a workflow for creating and updating the directory

NEXT STEPS

The directory will serve as a resource for all information professionals involved in IL curriculum development and integration

The submission form will be accessible to MLA members and non-MLA members. Education Domain Hub will market and maintain the directory.
