Issue #334

Making Way for the New SOM Learning Center

Pat Thibodeau, Associate Dean for Library Services & Archives

The construction of the School of Medicine (SOM) Learning Center has begun! The new building will not only be adjacent to the Library, but it will actually connect into the Seeley G. Mudd building, with walkways on what will be the second and third floors, currently the Entrance Level and First Stack Level of the Library.

As part of the renovations, offices to support the SOM curriculum will become part of the Library's third floor, which means storing, moving, and consolidating some of the current collection in the Library.

To prepare for the renovations, the Library is undertaking another review of its collections to identify the materials that need to be kept on our shelves for current use, stored at the Library Service Center, or possibly discarded. Library staff members are carefully reviewing each book title to determine its importance to Duke Medicine, how it might capture the history of various fields and subspecialties for future research, and whether duplicate copies are available on campus. The plan is to keep all books published since 2002 and all heavily used titles in the Library. Journals volumes that are available electronically or published before 1994 may be moved to Duke's Library Service Center.

Watch for more information in our newsletter as this project moves forward. If you have questions or concerns, please contact **Pat Thibodeau** at **(919) 660-1150** or **patricia.thibodeau@duke.edu**.

Changing the Face of Medicine Exhibit Celebrating America's and Duke's Women Physicians

February 14 - March 27, 2011

Duke University Medical Center Library & Archives
Seeley G. Mudd Building

Exhibit Open House: February 14

11:00 am - 6:00 pm

Refreshments will be served

“**Changing the Face of Medicine**,” a traveling exhibit created by the National Library of Medicine (NLM), celebrates some of the many extraordinary and fascinating women who have studied and practiced medicine in America. The overarching theme of diversity underscores how medicine benefits from a broad range of perspectives and careers, and how women with different economic and cultural backgrounds have changed the face of medicine. In addition to the displays, you can explore their stories at NLM’s online exhibit site at <http://www.nlm.nih.gov/changingthefaceofmedicine/>.

Other Special Exhibits and Events

Women in Duke Medicine

Features women “firsts” at Duke and key events over the decades.

Women as Healers

Historical view of women as healers, from family and community care givers, to women who have influenced the profession.

Oral Histories

Hear Duke women tell their own stories through oral history interviews. You can listen with your cell phone at (919) 674-0003.

Women in Duke Medicine: An Oral History Exhibit

Includes online interviews and biographical information created by Duke Medical Center Archives.
http://digitaldukemed.mc.duke.edu/med_women/

Tea with Trailblazers

March 14, 2:00 - 4:00 pm

Will feature a presentation by Dean Nancy Andrews, Duke’s first woman Dean of the School of Medicine.

We hope you find time to explore the exhibits and attend the Tea with Trailblazers presentation. Come help us celebrate women physicians and their contributions to the profession and to Duke.

For more information, visit our exhibit site at <http://www.mclibrary.duke.edu/exhibits/dukewomen>.

Save the Date!

The Duke Medical Center Library & Archives will host the annual "Tea with Trailblazers."

Duke Medical Center Library
History of Medicine Reading Room
March 14, 2011
2:00 - 4:00 pm

Please come and hear **Dr. Nancy Andrews**, the first female Dean of the Duke School of Medicine, speak about her trailblazing experiences. A time for questions will follow her remarks.

Free and open to the public. Refreshments will be served.

February is Black History Month

Did you know that Mary Eliza Mahoney (1845-1926) was the first Black professional nurse in the United States? In honor of Black History Month, the Medical Center Library revisits "Black History Month: A Medical Perspective," a popular virtual exhibit (<http://www.mclibrary.duke.edu/hom/exhibits/blkhist>) containing a wealth of information. The exhibit includes a chronology of achievements of African Americans in medicine, a section on folk medicine, and a selective bibliography.

EXPLORE: Tools to Improve Your Research, Teaching & Work

<http://www.mclibrary.duke.edu/training/explore>

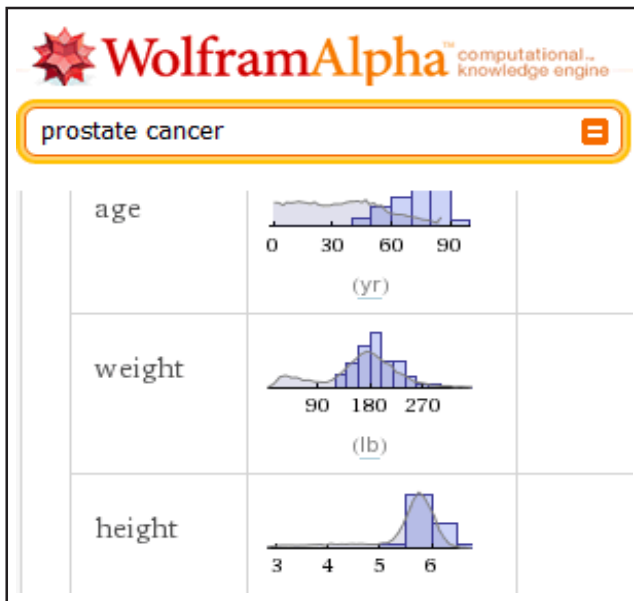

Remember the Milk

Free Task Manager

Is your desk cluttered with sticky notes, to-do lists, and calendars? Well, Remember the Milk (<https://www.rememberthemilk.com/>) can help! This free online tool lets you create to-do lists to help in planning and prioritizing your day. Using Remember the Milk, you can assign tags, notes, and due dates to tasks. You can also organize tasks by type, such as personal, study or work, and send yourself email or IM reminders about upcoming meetings.

The service is flexible, too. Tasks can be added from anywhere, viewed on Apple iCal or Google Calendar, or synchronized with Microsoft Outlook, Blackberry, or Windows Mobile accounts.

With Remember the Milk, you can share your tasks and lists with contacts, or use the map feature to pinpoint the location of appointments, meetings or errands. If you want to lose the desk clutter and get organized, give Remember the Milk a try.

WolframAlpha

Data, Statistics & Calculations Search Engine

WolframAlpha (<http://www.wolframalpha.com/>) bills itself as a computational search engine. Rather than simply finding the terms on a Web page, this program applies mathematical and logical algorithms to your search terms.

WolframAlpha indexes many data sources to provide charts and statistics for your results. For example, a search on "prostate cancer" would not yield information about prostate cancer treatment or life with prostate cancer. Instead, results would include the ICD-9 code and statistics on patients diagnosed with prostate cancer in a given year, reasons for the patients' visits, drugs prescribed at the visit, and characteristics of the patients.

Firefox Add-ons

Customizations for Your Browser

Firefox has thousands of add-ons available at <https://addons.mozilla.org/en-US/firefox/> to enhance, improve, and customize your browser experience. An add-on can be a time-saving toolbar button, security enhancement, themed look, and more. For example, *LeechBlock* is a productivity tool designed to block Websites that can suck the life out of your working day. All you need to do is specify which sites to block and when to block them.

If you work at more than one computer, check out *Xmarks*. This will keep bookmarks and open tabs synchronized across computers. *Session Manager* can be a lifesaver by saving and restoring all your open windows after a crash. Choose add-ons for the way you browse. Installation only takes a few clicks. Explore and add on now!

Demystify Our Images

Adonna Thompson, Medical Center Archives

“Demystify Our Images” (<http://digitaldukemed.mc.duke.edu/mystery/>), a popular interactive exhibit, was initially rolled out in 2008 as a joint project between the Duke Medical Center Library and Archives and the Duke Medical Alumni Association. It was advertised through the Archives’ newsletter and the Alumni publication, *DukeMed Alumni News*. The initial response to the exhibit was extremely positive.

The unique and useful aspect of this exhibit is that it gives visitors an online forum to examine unidentified images from our collections and immediately provide us with feedback. Users are allowed to post information or comments about a particular image directly to the site, much like a blog.

The Medical Center Archives has recently completed a migration to Drupal, a new open source Web platform for our Website, online exhibits, and departmental newsletter. The new Drupal platform has made it easier to add images and update the site with more regularity.

We are excited to hear what you think about this exhibit, as well as our new Drupal platform. So please stop by online and take a look!

Kindles Now Available!

Karen Grigg, Collection Development Services

Have you thought about purchasing an Amazon Kindle in order to download and read electronic books? Would you like to test drive one of these useful tools? If so, consider checking out one of our Kindles. Kindles may be checked out for two weeks and renewed twice, if there are no holds. They are loaded with an assortment of titles, many of which are for casual reading about medical topics.

The Medical Center Library's Collection Development Committee reviews all suggestions for new Kindle titles to purchase. If you'd like to suggest a title, contact **Karen Grigg** at karen.grigg@duke.edu. For more information about eReaders at Duke University, consult <http://library.duke.edu/ereaders/>.

Trent Lecture Video Series

Jessica Roseberry, Medical Center Archives

The Duke Medical Center Archives Website is now hosting video recordings of the Trent History of Medicine Society lectures. Currently, two videos have been added to the Website:

Dan Blazer, MD, MPH, PhD

J.P. Gibbons Professor of Psychiatry & Behavioral Sciences,
Vice Chair for Education & Academic Affairs, Duke University
Major Depression and the Death of Social Psychiatry

<http://archives.mc.duke.edu/publicity/trent/#blazerd>

Note: Due to file size, this lecture is divided into 12-minute sections, each approximately 100MB. Please be patient as files load.

Ruby L. Wilson, EdD, RN, FAAN

Dean Emerita, Duke University School of Nursing
Selected Reminiscences at Duke University Medical Center, 1955-1984

<http://archives.mc.duke.edu/publicity/trent/#wilsonr>

Note: Due to file size, this lecture is divided into 10-minute sections, each approximately 40MB. Please be patient as files load.

Duke/UNC Speaker Series

*Trent History of Medicine
Society and the Bullitt History
of Medicine Club*

**Mar. 8, 2011 - Duke Medical Center Library

Conventional Wisdom*

Duke/UNC Speaker Series

*Trent History of Medicine
Society and the Bullitt History
of Medicine Club*

**April 5, 2011 - UNC Health Sciences Library
Jeffrey P. Baker, MD, PhD**

Professor of Pediatrics; Director, History of
Medicine Program, Trent Center for Bioethics,
Humanities & History of Medicine, Duke University
The Historical Context of the Autism Epidemic

Staff News

Adrienne Leonardelli, Information & Education Services Librarian, has been appointed to the Mid-Atlantic Chapter (MAC) of the Medical Library Association's Professional Development Committee.

Pat Thibodeau, Associate Dean for Library Services and Archives, has been elected to the Medical Library Association's Nominating Committee, as a MAC representative. This committee selects the new slate of officers for the Medical Library Association.

New Circulation Policies

The Medical Center Library has implemented some new borrowing policies with changes in loan periods.

Books

Published prior to the most current two years - 91 days with one renewal. Recalls possible.

Published during the most current two years - 4 weeks with two renewals.

Duke Off-Site Stacks (LSC)

Undergraduates - 4 weeks.

Graduate Students - Annual loans due the end of May.

Faculty - Annual loans due the end of May.

Staff/Alumni/TRLN - 4 weeks.

Gifts and Donations

Karen Grigg, Assistant Director, Collection Services

The following individuals donated books/materials to the Medical Center Library from July, 2009 - December, 2010.

Dr. Dan Blazer
Dr. R. Randall Bollinger
James Fred Bowman
Dr. Marianne Breslin
Barbara Ann Busse
Dr. Jeffrey Bytomski
Dr. Saul Boyarsky
Alice Chao
Lisa Corbett
Ms. Beth A. Eastlick
Dr. George Engstrom

Dr. Lisle Wayne II
Christine E. Whitaker
Dr. R. Sanders Williams
Dr. Ruby Wilson
Dr. Susan Zarutskie

Matt Shangler Joins the Staff

Jessica Roseberry, Medical Center Archives

The Library welcomes our newest employee, Matt Shangler. In his role as Library Associate, he has been working on stacks cleanup, identifying missing journals and books, making an inventory of artwork in the Library, and assessing duplicate materials in the History of Medicine.

Matt became interested in archives while majoring in history and minoring in art history at the University of North Carolina at Greensboro. He completed his master's at NC State's Public History Program with a concentration in archives. He has worked on several internship projects, including inventorying a Canton, China, collection at the Mordecai Historic Park, creating a finding aid at the Duke Medical Center Archives, and digitizing a photograph collection for the Physician Assistant History Center. Matt also worked on a large-scale technical services project as part of the Isobel Craven Drill Internship at Duke University Archives.

Matt is enjoying the places his career path is taking him. He says, "I'm excited about the projects I'm working on in the Library. I feel at home here."

Improve Your Library Research Skills!

The Medical Center Library offers training to faculty, staff, and students on a variety of topics.

Customize Your Training

Online Request Form: <http://www.mclibrary.duke.edu/training/custom>

Sessions can be held for individuals or groups in the Library's computer classroom or in your own department. To schedule a session, please call (919) 660-1100 or complete the online form on our Website. Consultations can usually be scheduled within 5 business days. We like to have 2-4 weeks notice for a class, and planning even further ahead is helpful. Below are sample topics from our training and consultation services.

Library Basics

- Tour of the Library
- Introduction to using the Library
 - ▶ Tips on finding full-text articles & other materials
 - ▶ Information on Interlibrary Loan & other services
- Introduction to Clinical Tools: electronic resources to support clinical decision making

Searching the Literature

- How to Search PubMed: Basics
- How to Search PubMed: Advanced
- Customizing PubMed with My NCBI
- Web of Science
- CINAHL (Nursing & Allied Health)
- Evidence-based Medicine Resources

Staying Current in an Information-rich World

- Using RSS feeds for current awareness
- Table of Contents services
- Blogs, wikis, and social bookmarking
- Life after Duke: free resources to use when you graduate from Duke

Getting Organized for Research and Writing

- EndNote: Introduction
- EndNote: Advanced
- RefWorks
- Copyright
- Complying with the NIH Public Access Policy
- Tools for collaboration: Google Docs; sharing citations in EndNote and RefWorks
- Organizing work files

Mobile Devices

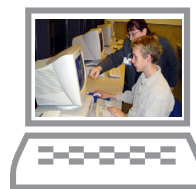

- Quality mobile-accessible tools for clinical care

Preparing for Classes

- Blackboard and BlueDocs
- Copyright

History of Medicine

- Tour of the Historical Collections

Learn Online at Your Own Pace

Online tutorials and tip sheets for using many of the Library's resources can be found on the Tutorials & Training section of the Library's Website at <http://www.mclibrary.duke.edu/training>.
