

UNITED STATES GOVERNMENT

# Memorandum

TO : Chief of Staff

FROM : Chief, Medical Service

SUBJECT: Physician Assistants Program

DATE: November 4, 1969

I am in receipt of a request from Mrs. Andreoli to introduce her students from the Physician Assistants Program to our hospital wards. I think this is a step in the right direction in that this program will flourish and grow as we get more and more into the allied health field. I do not think that this would represent an intrusion and we would certainly welcome these students.
