

CORE: Center of Research and Education

What is CORE?

■ MLA's Center of Research and Education

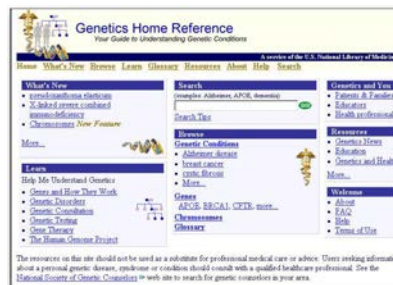

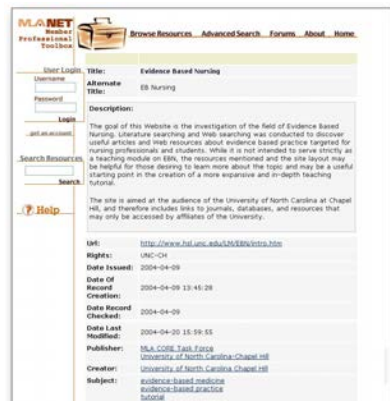

www.mlanet.org/core

■ Our vision for CORE:

“Point of need” access by MLA members to our best teaching and learning resources enhances our beneficial impact on health and health care.

■ Examples of Teaching and Learning Resources

- CE courses / tutorials
- Survey instruments
- Curricula
- Handouts, quick guides
- Scenarios and case studies
- Images
- Exercises
- Health Information Education Bank
- Professional expertise and mentoring
- and more

Why Should You Care?

Instructors / Authors

- locate high quality teaching materials
- build a course
- collaborate with others
- develop an audience for your course
- share your work with others

Learners

- find high quality learning materials
- identify a mentor or expert
- build a learning curriculum
- improve your skills
- meet educational needs at the teachable moment

How You Can Help

Contribute to CORE!

- Contribute your learning products
Contributions may include Websites, tutorials, presentations, handouts, games, articles
CORE promotes the Creative Commons model for rights management
- Use the CORE resources
- Share your feedback on CORE resources
- To contribute, complete the form on the CORE Website
www.mlanet.org/core
